A grant of \$80,000 was given to Dr. Domingo Aviado during 1980. The details of this grant were described in a letter dated January 30, 1980, a copy of which is attached. We are now recommending that Dr. Aviado be given support for a second year at a total amount of \$92,000.

During 1980, Dr. Aviado formed his own consulting organization named Atmospheric Health Sciences, Inc. He devoted approximately 150 days of the working year to projects related to smoking and health. His projects included an ongoing review of smoking and health literature, preparation of recommendations re research projects, several site visits to research institutions and the preparation of materials relating to our work on various smoking and health related matters. Without question, Dr. Aviado's efforts were of immense benefit to us.

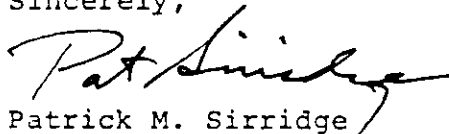

Bill Shinn and I have reviewed Dr. Aviado's project for the year 1980 and feel that renewed support is warranted in the amount of \$85,000 together with a \$7,000 allotment for expenses. As before, we plan to review the progress of the project at the end of the year to determine whether a similar arrangement should be made for 1982.

Please let me hear from you regarding this recommended grant as early as possible.

Sincerely,

Patrick M. Sirridge
